- Used PostgreSQL and SQL Server database for data management.
- Built the backend with .NET Core Web API and the frontend with Angular.
- Implemented role-based access control

STRENGTH

- **Team Player**
  Collaborated with teams to complete project issues within tight deadlines
- **Quick Learner**
  Efficiently learn new skills in a short time

Language

- English
- Hindi

SKILLS

- Algorithm and Data Structures
- problem solving
- **Programming Language**
  C#, ASP.NET MVC, .NET Core Web API, Angular
- **Database design and management**
  SQL Server, PostgreSQL
- Git version control
- Docker

WORK EXPERIENCE

Associate Software Developer

Amnex Infotechnology Pvt. Ltd.

📅 Jul 2023- Present   📍 Ahmedabad, Gujarat

- Utilized Git, Gitlab and TFS for version control and project management.
- Contributed to troubleshooting and fixing issues in 10+ live projects.
- Acquired the skill of deploying Dot Net applications on an IIS Server.
- Learned strategies for improving database query optimization
- Implemented logic to upload datasets to Azure Blob Storage using SAS tokens within a .NET MVC framework.

Software Development Intern

Amnex Infotechnology Pvt. Ltd.

📅 Jan 2023- Jun 2023   📍 Ahmedabad, Gujarat

- Designed CRUD operations within a .NET MVC framework.
- Implemented authorized API endpoints using JWT tokens in .NET Core Web API.
- Acquired basic understanding of Angular framework.
- Learned and utilized Kendo UI for .NET and Angular.
- Resolved over 100 SQL queries with optimization.
- Worked with ADO.NET for database connectivity and data operations with PostgreSQL and SQL Server.
